INDEX TO VOLUME 27

JANUARY-DECEMBER 1975

Part I. Subjects Part II. Authors

Published by The Metallurgical Society of AIME
345 East 47th Street, New York, N. Y. 10017

I. SUBJECTS

THE METALLURGICAL SOCIETY OF AIME

HONORS AND AWARDS

The Metallurgical Society of AIME honors five Fellows. February 1975, p. 30.

Nominations to Fellow of the Metallurgical Society. Feoruary 1975, p. 26.

Awards of The Metallurgical Society of AIME. February 1975, p. 32.

Awards of the Iron and Steel Society of AIME. February 1975, p. 32.

1975 Annual Meeting Lecturers. February 1975, p. 31.

1975 AIME Awards. February 1975, p. 33

William Hume-Rothery Award. April 1975, p. 17.

1975 IMD Lecturer & Robert F. Mehl Medalist. April 1975, p. 37.

AIME Rock Mechanics Award. September 1975, p. 32.

1975 Hoover Medal. November 1975, p. 32.

MEETINGS AND PROGRAMS

1975 AIME Annual Meeting—All-Institute Sessions. January 1975, p. 34.

International Conference on Composite Materials—Program. March 1975, p. 7.

1975 Offshore Technology Conference: Selected Program. April 1975, p. 6.

1975 TMS–AIME Spring Meeting Program. April 1975, p. 25.

1976 Officers and Board of Directors of The Metallurgical Society of AIME. July 1975, p. 35.

Nominations for 1976 AIME Offices. July 1975, p. 32.

1975 Materials Science Symposium Program. August 1975, p. 25.

Poster Session at TMS Fall Meeting. October 1975, p. 98.

1976 TMS/AIME Annual Meeting Program. December 1975, p. A1.

OFFICERS

Thomas A. Henrie: 1975 President of the Metallurgical Society. February 1975, p. 10.

1975 TMS Divisional Officers. February 1975, p. 26.

1975 Officers of The Metallurgical Society of AIME. February 1975, p. 36.

1975 AIME President. February 1975, p. 35.

TECHNICAL ARTICLES

AIME

AIME Report and Interpretation. W. E. Glenn, J. B. Alford. February 1975, p. 7.

1974 AIME Annual Report. April 1975, p. 21.

AIME Report and Interpretation. J. B. Alford. August, 1975, p. 14.

ALUMINUM

Aluminum alloy coherency. R. J. Claxton. February 1975, p. 14.

Demagging in the secondary aluminum industry. M. C. Mangalick. June 1975, p. 6.

New methods for determining hydrogen content in aluminum and its alloys. Francis Degrève. March 1975, p. 21.

COATINGS

Corrosion-resistant aluminide coatings for iron- and nickel-base alloys. H. W. Lavendel. July 1975, p. 4.

COMPOSITES

Aluminum graphite composites: Effect of processing on mechanical properties. W. C. Harrigan, Jr., D. M. Goddard. May 1975, p. 20.

Fiber composite structures. M. Salkind. May 1975, p. 15.

COPPER

Development of the roast–leach–electrowin process for Lakeshore. W. A. Griffith, H. E. Day, V. C. Nyman. February 1975, p. 17.

High intensity refining of copper at James Bridge. M. Owen, J. S. Jacobi. April 1975, p. 10.

High current density copper electrorefining and electrowinning in a series cell Part I—Electrorefining. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. July 1975, p. 19.

High current density copper electrorefining and electrowinning in a series cell Part II: Electrowinning. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. August 1975, p. 19.

1975 AIME President. February 1975, p. 35.

TECHNICAL ARTICLES

AIME

AIME Report and Interpretation. W. E. Glenn, J. B. Alford. February 1975, p. 7.

1974 AIME Annual Report. April 1975, p. 21.

AIME Report and Interpretation. J. B. Alford. August, 1975, p. 14.

ALUMINUM

Aluminum alloy coherency. R. J. Claxton. February 1975, p. 14.

Demagging in the secondary aluminum industry. M. C. Mangalick. June 1975, p. 6.

New methods for determining hydrogen content in aluminum and its alloys. Francis Degrève. March 1975, p. 21.

COATINGS

Corrosion-resistant aluminide coatings for iron- and nickel-base alloys. H. W. Lavendel. July 1975, p. 4.

COMPOSITES

Aluminum graphite composites: Effect of processing on mechanical properties. W. C. Harrigan, Jr., D. M. Goddard. May 1975, p. 20.

Fiber composite structures. M. Salkind. May 1975, p. 15.

COPPER

Development of the roast–leach–electrowin process for Lakeshore. W. A. Griffith, H. E. Day, V. C. Nyman. February 1975, p. 17.

High intensity refining of copper at James Bridge. M. Owen, J. S. Jacobi. April 1975, p. 10.

High current density copper electrorefining and electrowinning in a series cell Part I—Electrorefining. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. July 1975, p. 19.

High current density copper electrorefining and electrowinning in a series cell Part II: Electrowinning. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. August 1975, p. 19.

Recovery of nickel, copper and precious metal concentrate from high grade precious metal mattes. L. R. Hougen, H. Zachariasen. May 1975, p. 6.

CORROSION

Corrosion–resistant aluminide coatings for iron– and nickel–base alloys. H. W. Lavendel. July 1975, p. 4.

DEFORMATION

Beneficial stress-strain behavior of moly-columbium steel line pipe. G. Tither, M. Lavite. September 1975, p. 15.

The effect of the magnitude of the stress exponent on the time span of logarithmic stress relaxation and creep. A. S. Krausz. November 1975, p. 5.

ECONOMICS

Highlights of the new pension law. February 1975, p. 27.

Hydrogen economy from the viewpoint of nonferrous extractive metallurgy. T. Tanaka, R. Shibayama, H. Kiuchi. December 1975, p. 6.

Is your salary what it should be? May 1975, p. 26.

Process analysis and economics of flash technology. S. N. Sharma, D. B. George. August 1975, p. 7.

EDUCATION

1975 Senior Class. John P. Nielsen. March 1975, p. 27.

On the teaching of a graduate course in phase transformations. D. Turnbull, J. S. Kirkaldy, J. E. Hilliard, H. I. Aaronson. September 1975, p. 24.

ELECTROMETALLURGY

The deposition of titanium metal by fusion electrolysis. S. Tokumoto, E. Tanaka, K. Ogisu. November 1975, p. 18.

High intensity refining of copper at James Bridge. M. Owen, J. S. Jacobi. April 1975, p. 10.

High current density copper electrorefining and electrowinning in a series cell Part I—Electrorefining. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. July 1975, p. 19.

High current density copper electrorefining and electrowinning in a series cell Part II: Electrowinning. W. W. Harvey, M. R. Randlett, K. I. Bangerskis. August 1975, p. 19.

ENVIRONMENTAL PROTECTION

Developments in sulfur disposal techniques in hydrometallurgy. M. L. Jansen, D. A. Mulligan. January 1975, p. 13.

Recovery of chlorine and iron oxide from ferric chloride. J. I. Paige, G. B. Robidart, H. M. Harris, T. T. Campbell. November 1975, p. 12.

FLASH SMELTING

Process analysis and economics of flash technology. S. N. Sharma, D. B. George. August 1975, p. 7.

HEAT TREATMENT

Temper embrittlement in steel for thick-walled gun tubes. F. A. Heiser, R. S. DeFries. January 1975, p. 8.

HIGH STRENGTH STEELS

Beneficial stress-strain behavior of moly-columbium steel line pipe. G. Tither, M. Lavite. September 1975, p. 15.

Control-rolled high-strength low-alloy plate steel. G. J. Roe, G. D. Marsh. June 1975, p. 15.

Precipitation in microalloyed high-strength low-alloy steels. A. T. Davenport, L. C. Brossard, R. E. Miner. June 1975, p. 21.

HYDROMETALLURGY

Developments in sulfur disposal techniques in hydrometallurgy. M. L. Jansen, D. A. Mulligan. January 1975, p. 13.

LEAD

Combined zinc-lead smelting: Recent practice and development. G. Binetti, J. Koteski, D. Temple. September 1975, p. 4.

METALLURGICAL PROFESSION

The Citation Index Revisited. C. Wert. December 1975, p. 20.

The engineer in a changing society. March 1975, p. 32.

Is your salary what it should be? May 1975, p. 26.

National materials policy—A focal point for metallurgists. W. H. Dresher. January 1975, p. 24.

Report of Engineering Foundation: Meeting Society's Challenge to Engineers. December 1975, p. 5.

The research productivity of academic materials scientists. A. A. Johnson, R. B. Davis. June 1975, p. 28.

TMS—The Metallurgists' Society. William H. Dresher, Harold W. Paxton. July 1975, p. 28.

TMS Members. A Who's Who of Metallurgy. July 1975, p. 26.

THE METALLURGICAL SOCIETY

Bylaws of The Metallurgical Society of AIME. July 1975, p. 29.

IMD technical programming: A report on policies, procedures and plans. K. R. Kinsman. November 1975, p. 24.

The proposed EMD/IMD merger. April 1975, p. 8.

TMS Long Range Planning Committee. March 1975, p. 34.

TMS Membership Directory. October 1975, p. 11.

MICROSTRUCTURES

Aluminum alloy coherency. R. J. Claxton. February 1975, p. 14.

Precipitation in microalloyed high-strength low-alloy steels. A. T. Davenport, L. C. Brossard, R. E. Miner. June 1975, p. 21.

NICKEL

Recovery of nickel, copper and precious metal concentrate from high grade precious metal mattes. L. R. Hougen, H. Zachariasen. May 1975, p. 6.

NON-FERROUS METALLURGY

Development of the roast–leach–electrowin process for Lakeshore. W. A. Griffith, H. E. Day, V. C. Nyman. February 1975, p. 17.

Hydrogen economy from the viewpoint of nonferrous extractive metallurgy. T. Tanaka, R. Shibayama, H. Kiuchi. December 1975, p. 6.

Recovery of nickel, copper and precious metal concentrate from high grade precious metal mattes. L. R. Hougen, H. Zachariasen. May 1975, p. 6.

Titanium Production: Ilmenite vs. Rutile. G. J. Dooley III. March 1975, p. 8.

PENSION

Highlights of the new pension law. February 1975, p. 27.

PHASE TRANSFORMATIONS

On the teaching of a graduate course in phase transformations. D. Turnbull, J. S. Kirkaldy, J. E. Hilliard, H. I. Aaronson. September 1975, p. 24.

PRECIOUS METALS

Recovery of nickel, copper and precious metal concentrate from high grade precious metal mattes. L. R. Hougen, H. Zachariasen. May 1975, p. 6.

PUBLICATIONS

TMS Publications and Paper Selections. August 1975, p. 39.

SAFETY

Guest editorial. David V. MacCollum. December 1975, p. 16.

SUPERALLOYS

Corrosion–resistant aluminide coatings for iron– and nickel–base alloys. H. W. Lavendel. July 1975, p. 4.

Physical metallurgy and properties of a new controlled–expansion superalloy. D. R. Muzyka, C. R. Whitney, D. K. Schlosser. July 1975, p. 11.

TITANIUM

The deposition of titanium metal by fusion electrolysis. S. Tokumoto, E. Tanaka, K. Ogisu. November 1975, p. 18.

Recovery of chlorine and iron oxide from ferric chloride. J. I. Paige, G. B. Robidart, H. M. Harris, T. T. Campbell. November 1975, p. 12.

Titanium Production: Ilmenite vs. Rutile. G. J. Dooley III. March 1975, p. 8.

ZINC

Combined zinc-lead smelting: Recent practice and development. G. Binetti, J. Koteski, D. Temple. September 1975, p. 4.
